- Integrity
- Honesty
- Excellence
- Discipline
- Care and Concern
- Courage

Core Business

Genset-Services

Our highly-experienced team of sales personnel and service technicians provide customers with a level of service second-to-none. Our capabilities in all areas of generator supply and service are first demonstrated in the inquiry stage, when we work closely with customers to determine the system that best meets their needs.

Electrical Services

Our industrial electrical contractors can handle all of your installation and repair needs, from PCC Panel to Control Logic no matter how big or small. We're passionate about providing highly specialized services to industrial electrical applications. Our expertise allows us to efficiently service and maintain the equipment necessary to keep industries up and running.

Solar

We are your strategic partner for consultation, financing, implementation and maintenance for alternative energy systems • Lower Cost for Electricity • Zero Investment and Maintenance Cost Our goal is to partner with your electrical company in providing your energy needs in the most cost effective and efficient way possible, through the strategic use of renewable and clean energy alternatives.

Genset

Our primary mission is the Sales/Service/ Hiring of electrical power generators for business and personal usage. We are one of the leading suppliers and service providers of power generating sets like generator installations services, generator hiring services, generator repair services, AMC, Spare our abilities include. We offer the most recognized brands and durable gen-sets for sale-purchase & rental purposes. Our generators offer power ranging from 1.5- 1500 KVA for a variety of application. We ensure that our operations conform to highest degree of professionalism. Among our major suppliers you will find such companies as Cummins, Kirloskar, Caterpillar, Ashok Leyland, Greaves, Mahindra, Eicher, Escort, Honda and many others.

Srevicees

Sale

Service is not just a department to us, it is the core of what we are and the very foundation of our company. Supplying our customers with their power needs and helping them to succeed in their business is truly the essence of what Genset Services stands for. Genset Services is a premier generator service provider committed to long term and successful partnerships with their customers.

Hiring

Industrial and Commercial Generator Emergency Service 24/7/365 We offer 24-hour service with a fleet of fully stocked service vans and also provided on a long lease. Should your generator system fail we have all the resources to bring you back on line quickly. You won't be stuck with costly delays and leaving phone messages with an answering service. We believe in personal contact and talking to people, not machines. Fully Trained Industrial Power Generator Experts Our experienced technicians service all makes and models of Bi-Fuel, Diesel and Gaseous generator systems including: Generac, CAT, Cummins, Doosan, MTU, and Kohler.

Service

Industrial Generator Maintenance We offer customized Preventative Maintenance (PM) / Annual maintenance contract (AMC) programs to our customers. Frequently, standby generator systems remain idle for long periods. Like any other equipment, industrial generator systems need to be periodically checked and undergo routine maintenance to ensure they are fully operational when needed. A power outage is not the time to discover your standby generator system isn't operational.
